## REPORT ON A ONE DAY SEMINAR ON SUCCEEDING IN GATE

### Mookambigai College of Engineering Equips Students for GATE Success with One-Day Seminar

**Date:** April 21, 2022

**Organized by:** Career Guidance and Preplacement Training Cell (CGPTC)

**Conducted by:** Sri Krishna Engineering Academy, Trichy

On **April 21st, 2022**, the Career Guidance and Preplacement Training Cell (CGPTC) at Mookambigai College of Engineering (MCE) successfully organized a one-day seminar titled "How to Successfully Complete GATE." This informative program aimed to empower Third Year engineering students with the knowledge and strategies necessary to excel in the Graduate Aptitude Test in Engineering (GATE).

### Industry Experts Share GATE Guidance

The seminar featured resource persons from Sri Krishna Engineering Academy, Trichy, and a reputed institute with a proven track record in GATE coaching. These experienced professionals brought valuable insights and practical guidance to the students.

## Key Focus Areas

The program covered a comprehensive range of topics designed to equip students for GATE success. Here's a breakdown of the potential key focus areas:

- **GATE Introduction and Benefits:** An overview of the GATE exam, its purpose as a national-level entrance exam for postgraduate engineering programs and PSU recruitment, and the importance of a strong GATE score for career advancement.
- **GATE Exam Format and Syllabus:** A detailed breakdown of the exam format, including question types, weightage of different sections, and the specific syllabus relevant to each student's engineering discipline.
- **Eligibility Criteria:** Clear information on the eligibility criteria for appearing in the GATE exam, ensuring students understand their participation requirements.
- **Application Process:** A step-by-step guide on the GATE application process, including registration, filling out the application form, and fee payment.
- **Effective Study Strategies:** Expert advice on developing effective study habits, time management techniques, and resource utilization for optimal exam preparation.
- **Problem-Solving Techniques:** Guidance on approaching different types of GATE questions, including numerical ability, aptitude, and subject-specific questions.
- **Mock Tests and Practice Papers:** The importance of taking mock tests and solving practice papers to assess understanding, identify areas for improvement, and build exam confidence.
- **Time Management and Exam Temperament:** Strategies for effective time management during the GATE exam and maintaining a positive exam temperament for optimal performance.

## Benefits for Students

**This GATE success seminar offered MCE students a unique opportunity to:**

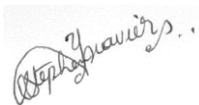

- Gain valuable insights from experienced professionals in the field of GATE coaching.
- Understand the GATE exam format, syllabus, and eligibility criteria.

- Develop effective study strategies and problem-solving techniques.
- Learn the importance of mock tests and practice papers.
- Receive guidance on time management and maintaining a positive exam temperament.

The GATE Success Seminar organized by the CGPTC at MCE proved to be a valuable resource for students pursuing postgraduate studies or careers in PSUs. By equipping them with the necessary knowledge and strategies, the program empowered them to confidently approach the GATE exam and take a significant step towards achieving their academic and professional goals.

## REPORT ON THE ENGLISH COMMUNICATION CLASSES CONDUCTED EXCLUSIVELY FOR THE FINAL YEAR ENGINEERING STUDENTS (BATCH 2018-22)

The impact of the COVID-19 pandemic significantly affected educational experiences worldwide. At Mookambigai College of Engineering, the final year engineering students (Batch 2018-22) faced this challenge first-hand. Due to the nationwide lockdown implemented on March 25th, 2020, their in-person classes transitioned to an online format, continuing until February 25th, 2022. This shift, while necessary for safety reasons, inevitably limited opportunities for real-time communication training.

In recognition of this gap and its potential impact on their professional development, Mookambigai College of Engineering implemented a dedicated English communication program for these final year students. Led by Dr. Y. Stephen Xavier, In charge, Career Guidance and Preplacement Training Cell, the program aimed to bridge the gap between academic knowledge and the practical communication skills crucial for success in the workforce.

### Program Details

- **Dates:** May 11, 2022 - May 25, 2022
- **Duration:** 10 hours
- **Frequency:** 3 hours a week
- **Location:** Online platform (due to prior online learning transition)
- **Instructor:** Dr. Y. Stephen Xavier, In charge, Career Guidance and Preplacement Training

### Program Focus

The primary focus of the program was to develop strong English communication skills in a professional context. The curriculum addressed areas critical for success in the job market, including:

- **Clear and concise communication:** Emphasis on expressing ideas with precision and avoiding ambiguity.
- **Technical writing and presentations:** Tailoring reports and presentations for a technical audience while maintaining clarity and professionalism.
- **Interview skills:** Building confidence in answering common interview questions, effectively communicating strengths and experiences, and demonstrating strong body language.
- **Business etiquette:** Understanding professional email communication, phone etiquette, and appropriate workplace behavior.

### Syllabus

#### Module 1: Introduction to Professional Communication (2 hours)

- **The Importance of Communication in Engineering Careers:** Exploring the impact of communication on project success, team collaboration, and client interaction.

- **Elements of Professional Communication Style:** Discussing the importance of clarity, conciseness, formality, and tailoring communication to the target audience.
- **Active Listening and Non-Verbal Communication:** Highlighting the importance of attentive listening, appropriate body language, and maintaining eye contact in professional settings.

### **Module 2: Written Communication Skills (4 hours)**

- **Technical Report Writing:** In-depth exploration of technical report structure, formatting, referencing styles, and techniques for writing clear and concise reports for a technical audience.
- **Business Emails and Letters:** Crafting effective business emails and letters with a focus on professional tone, proper structure, audience-appropriate language, and proofreading techniques.
- **Resume and Cover Letter Writing:** Developing targeted resumes and cover letters that effectively highlight skills, achievements, and experiences relevant to specific job applications. Students participated in workshops to tailor their resumes and received personalized feedback.

### **Module 3: Oral Communication Skills (4 hours)**

- **Presentation Skills:** Equipping students with the tools to structure compelling presentations, use visuals effectively, and deliver content confidently through workshops and individual presentations.
- **Interview Skills:** Practicing common interview scenarios through mock interviews and role-playing exercises. Focus on answering questions confidently, highlighting strengths and experiences using the STAR method (Situation, Task, Action, Result), and demonstrating strong body language.
- **Group Discussions:** Developing effective group discussion skills through participation in simulated scenarios. Students learned techniques for actively listening, presenting ideas persuasively, and working collaboratively within a team setting.

### **Methodology**

The programme was designed to be as interactive and engaging as possible in an online environment. The classes incorporated a variety of teaching methods, including:

- **Interactive Online Lectures:** Providing foundational knowledge on key communication principles while maximizing student participation through online polls, breakout rooms, and Q&A sessions.
- **Asynchronous Discussions:** Facilitating ongoing discussion and exchange of ideas on real-world professional communication challenges through online forums.
- **Collaborative Activities:** Encouraging teamwork and developing collaborative communication skills through online group projects and presentations using collaborative tools.
- **Role-Playing Exercises:** Providing students with a safe space to practice communication skills through simulated real-world professional scenarios adapted for an online format, such as mock video interviews and online group meetings.
- **Individual Presentations:** Building confidence in public speaking and presentation delivery through pre-recorded presentations and constructive feedback from peers and the instructor.

### **Conclusion**

The COVID-19 pandemic's limitations on in-person interaction during their academic journey highlighted the critical need for these communication classes for the final year engineering students (Batch 2018-22)

# MOOKAMBIGAI COLLEGE OF ENGINEERING

SRINIVASA NAGAR, KALAMAVUR, PUDUKKOTTAI-622502.

**Career Guidance and Preplacement Training Cell**

## REPORT ON THE TRAINING CLASSES CONDUCTED FOR THE THIRD AND FINAL YEAR ENGINEERING STUDENTS (BATCH 2019-23 AND 2018-22)

### Introduction

This report details the programming training program conducted by the Career Guidance and Preplacement Training Cell of Mookambigai College of Engineering for the benefit of Third (2019-23 batch) and final year (2018-22) engineering students with no standing arrears in the 5<sup>th</sup>, 6<sup>th</sup>, 7<sup>th</sup> and 8<sup>th</sup> semesters. The program equipped students with in-demand programming skills, focusing on C, C++, and Java, during the academic year 2021-2022 (September to November 2021 and Feb to June 2022).

### Course Structure

- **Semester:** Odd & Even
- **Target Audience:** Third Year (2019-23 batch) Final year engineering students (2018-22 batch) with no standing arrears in 5<sup>th</sup>, 6<sup>th</sup>, 7<sup>th</sup> and 8<sup>th</sup> semesters.
- **Resource Persons:**
  - Mrs. Sharmila M.E.,
  - Ms. Jayashree M.E., and
  - Ms. Pavithra M.E.
- **Course Languages:** C (Odd Semester), C++ & Java (Even Semester)
- **Evaluation:** Three Tests per Semester (C, C++, and Java)

### Course Content

#### C SYLLABUS

1. Introduction to C
2. C Fundamentals
3. Formatted Input/Output
4. Expression
5. Selection Statement
6. Loops
7. Arrays
8. Functions
9. Pointers
10. Pointers and Arrays
11. Structure and Union
12. Files

#### C ++ SYLLABUS

1. C++ Syllabus
2. C++ Overview
3. Functions and Variables
4. Class in C++
5. Constructor and Destructor
6. Operator Overloading
7. Array
8. Pointer
9. String and Dynamic
10. Memory

11. Inheritance
12. Polymorphism
13. Input and Output in C++ Programs

## OOPS CONCEPTS

### JAVA Java Syllabus

1. Java Fundamentals
2. Oops Concepts
3. Access Specifiers, Static Members
4. Inheritance
5. Interface
6. Polymorphism
7. Packages
8. Exception Handling
9. Multithreading
10. I/O, Generics, String Handling

### Course Objectives

- Equip students with a strong foundation in C programming.
- Impart knowledge of object-oriented programming principles in C++.
- Develop proficiency in Java programming for building applications.
- Enhance students' problem-solving abilities and coding skills.
- Increase their employability in the software development industry.

### Course Methodology

The program likely adopted a blended learning approach similar to previous semesters:

- **Interactive Lectures:** The resource persons delivered lectures on core concepts, principles, and object-oriented programming specific to each language.
- **Hands-on Sessions:** Students participated in practical coding exercises to solidify their understanding and gain experience in developing C, C++, and Java programs.
- **Doubt-clearing Sessions:** Dedicated time was allocated to address student questions and resolve any conceptual difficulties.

### Course Assessment

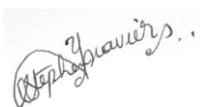

Students' performance was evaluated through three semester-based tests:

- **C Test:** Assessed understanding of C programming fundamentals.
- **C++ Test:** Evaluated grasp of object-oriented programming concepts in C++.
- **Java Test:** Measured proficiency in core Java and advanced Java concepts.
  - The test formats likely included a combination of multiple-choice questions, coding problems, and short answer questions.

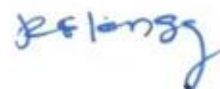

### Expected Outcomes

By successfully completing the training program, students were expected to achieve the following:

- Possess a strong understanding of C programming concepts.
- Apply object-oriented programming principles to develop C++ applications.
- Build robust applications using their acquired Java programming skills.
- Effectively solve problems and translate solutions into well-structured code.
- Stand out from the competition in the job market with their diverse programming skillset.
